macdata

Available now, the new **SAFEWARE** door lock is designed exclusively to suit the **PROFILE 22** system. Developed and proven by PVC-U window and door specialists providing you and your customer with an effective and hardwearing security product.

See back page for list of features and benefits.

PROFILE 22 – 13 years of firsts

1990: First 4 roller locks

1992: First multi-dead bolt locks

1995: First multi-hook bolt locks

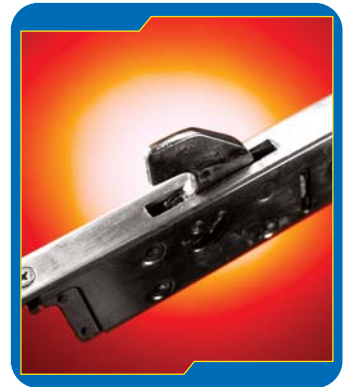

1999: Revolution lock

**2003: First true non-handed
one piece keep**

What is SAFEWARE?

- Dedicated range of exclusive branded hardware
- Specially developed for PROFILE 22
- Fully tested to current security standards
- Supported by a 10 year warranty
- Full on site technical support

Product Assurance

- Tested to PAS023/024
- Accredited by Secured by Design
- Cycle tested to a minimum 30,000 cycles (15 years regular use)
- 10 year guarantee on every lock

SAFEWARE 3+

SAFEWARE 3+ is a versatile, clean-face multi-point three hook lock with optional shootbolts top and bottom to give a maximum of five locking points. It is suitable for a wide range of door heights from the tallest to the smallest doors and for double or French doors.

SAFEWARE 3+ is supplied with a range of fully adjustable stainless steel multi-keepsets with solutions for the lock side, head and cill frames. For French doors it offers a simple and economical solution where finger bolts are used on the slave leaf or, for a more sophisticated option, where French doors

incorporate the **SAFEWARE SL** lock within the slave leaf.

SAFEWARE 3+ with shootbolts is particularly suited to taller doors and French doors for the enhanced security and the excellent weathering characteristics achieved when fitted with this lock.

SAFEWARE 7

With the same advantages as the **SAFEWARE 3+** lock but without shootbolts, **SAFEWARE 7** is a seven point lock incorporating three hooks and four pre-compression rollers. It is designed to give optimum

security with ease of operation.

SAFEWARE 7 locks are supplied with an optional true one piece keep set, which is non-handed for minimum stock holding and ease of ordering.

The one piece keep set features several innovations that are unique to **SAFEWARE**, thereby saving you manufacturing time and allowing simple, quick and effective installation.

SAFEWARE SL

SAFEWARE SL is a slave lock designed for double or French doors. It complements **SAFEWARE 3+** and **SAFEWARE 7** locks.
